

The Trumbull Memorial Health Foundation Spring 2019 Request for Proposals (RFP) – *Issue Specific* Grant Program

Granting Priorities

The Trumbull Memorial Health Foundation requests proposals for innovative projects within the following issue-specific areas, each aligning with a restricted fund of the Foundation.

- **Oncology Fund**
 - Supports programs/projects that address needs of cancer patients and/or their families
 - Generally, grant size is not above \$10,000
- **Hospice Fund**
 - Supports programs/projects that promote hospice services, care or education
 - Generally, grant size is not above \$10,000
- **Rose Hughes Diabetes Fund**
 - Supports programs/projects that promote diabetes care, including prevention programs and education
 - Generally, grant size is not above \$2,000
- **Orthopedics Fund**
 - Supports programs/projects that provide education, care and/or support for patients receiving orthopedic care
 - Generally, grant size is not above \$3,000
- **Wean Foundation Fund for Women's and Children's Health**
 - Supports activities designed to improve the quality of women's and children's health in Trumbull County, Ohio, with a focus on underserved populations, particularly in the city of Warren. The intent is not to support organizations which have as their mission combatting specific diseases or conditions, but rather to address broader health issues such as, for example, infant mortality, low birth weight, access to women's health care, healthy food or other priorities identified by Trumbull County in their periodic community health assessments. Acknowledging that the County's priorities are often aimed at larger societal issues which impact health, the TMHF is permitted to consider grants to address these barriers to health as well, to the extent that they affect women and children.
 - The fund encourages strategies which engage residents to be active participants in and advocates for their healthy lives. Therefore, grants to support advocacy at the local and state level around policy issues bearing on the target population (such as access to health insurance, etc.) may be considered.
 - While Trumbull County is the intended service area for distributions from this fund, we encourage openness to collaborative efforts which cross county lines, efforts which can lead to greater efficiencies and impact.
 - Generally, grant size is not above \$40,000

Please visit our website to read full descriptions of the issue-specific funds at <http://www.cfmv.org/trumbull-memorial-health-foundation/trumbull-memorial-health-foundation-funds/>.

Guidelines

Eligible applicants must be tax-exempt organizations under Internal Revenue Service 501(c)(3) or operate under the fiscal sponsorship of a tax-exempt non-profit, including schools, churches and public organizations. Eligible organizations must provide services which contribute to the health and wellness of the residents of Trumbull County.

How to Apply

Interested applicants must submit an application with supporting documentation on or before March 29, 2019 at 4:00 p.m. Final grant decisions will be announced in June 2019. Grant applications are available at www.cfmv.org/trumbull-memorial-health-foundation.
